

Clayton County Public Schools (CCPS) is pleased to share that the six (soon to be seven) locations of the Clayton County Library System are offering free WiFi access for our students and their families. Access is available in the parking lot of each branch. No password is required and the WiFi is active from 9:00 a.m. to 9:00 p.m. daily, even when the library branches are closed. It is recommended, for safety and security reasons, that students should make use of this resource during school hours Monday through Friday.

To gain access to the library system's WiFi, students, using a laptop or a wireless device, should locate the public network, ***Library Wireless***, and click "**connect.**"

The Clayton County Public Libraries are currently operating under a limited schedule. Patrons are allowed in the Building for 45 minutes. After 45 minutes, the building is closed for 15 minutes to clean and sanitize.
